We Keep Great Equipment Working Great!

John Deere® Steering Valve Assemblies

SAVE TIME AND AVOID THE STRESS

Our remanufactured steering valve blocks and assemblies will save time and money. These ready-to-install assemblies save five or more hours of service time, and are preset to eliminate the need for any adjustment. Coverage includes John Deere 10-20-30 series tractors.

Our remanufacturing process includes:

- ✔ Complete disassembly and cleaning, all parts are inspected for reusability
- ✔ Installation of all new seals and o-rings
- ✔ Main shaft is machined or replaced with new, if required
- ✔ Bench tested for leaks and proper pressures
- ✔ All adjustments made and preset, as if on the tractor, to factory turning points
- ✔ Painted and packaged to prevent damage in shipping

New Phoenix Warehouse

BETTER LOCATION, MORE SHIPPING EFFICIENCY

In our continuing efforts to efficiently service our customers, we have moved our Minden, Nevada warehouse to a new state-of-the-art warehouse located in Phoenix, Arizona. The new warehouse is in full operation, processing and shipping orders. Our modern facility includes over 100,000 square feet, high density storage, optimized workflow placements, 30-foot clear ceiling height and multiple loading docks. We are now able to offer better service and improved delivery to our customers in the Southwest region.

**Our new warehouse address is:
2300 S. 51st Avenue Suite 120, Phoenix, AZ 85043**

All other contact information, including telephones, email, and website remain the same. To carry on providing great service, many of the employees you already know from Minden have made the move to Phoenix. Please stop in and visit any time you are in the area. We remain committed to serving you and your business, and look forward to continuing to do so at our new location.

Employee Spotlight – Scott Kniffen

MEET THE RELIANCE TEAM

Scott Kniffen is an inside salesman at our Phoenix, AZ location, focusing primarily on the servicing of export and assisting west coast customers. With over 40 years of experience in the industry, and having been with the company since 1996, he is an integral part of our sales team - you can depend on Scott's knowledge and expertise!

Scott is a new Phoenix resident, making the move from Minden, NV with our new warehouse. He enjoys camping and is an avid NASCAR fan. He is looking forward to the NASCAR races in Phoenix along with off road and drag racing events. He and his wife Brenda have two sons and five grandchildren that they enjoy spoiling as much as possible.

Scott would like to thank all his customers for their business. When asked what he would like to express to them, he said, "I want them to know that I am passionate about my work. I enjoy working with them to identify and fulfill their parts needs."

SCOTT KNIFFEN
PHOENIX, AZ

SMARTS Catalog Price Settings

It has come to our attention that there may be some confusion in determining your cost on a selected part in the SMART CD catalog. The catalog is set with a default cost multiple of 1.5. To reset the cost margin to display your cost, select from the top left toolbar: Options -> Settings. In the pop-up window, enter '1' in the Cost margin box. Now the 'Price' displayed for a selected part is your cost.

The Reliance Insights newsletter is your source for product announcements, events, technical information, and much more. Take a look inside and see what's new!

We make every effort to ship from our closest location to reduce shipping time and charges.

Warehouses located in: Phoenix - AZ, Lincoln - NE, Harlan - IA, Lynn - IN, Jacksonville - FL, and Winnipeg - MB (Canada)

Harvesting Peace of Mind

PREP AHEAD FOR FALL SEASON

Summer turns to fall this month and it's time to start planning for the harvest season. We have the parts to get all the machines ready for the field, and highlight parts for combines. If the steering on the John Deere tractors is acting up, we have a great solution. We are also excited about our new warehouse location in Phoenix, Arizona.
