Cummins® Front and Rear Crankshaft Seals.

Reliance is pleased to announce the availability of front and rear crankshaft seals for Cummins B and C series applications. The crankshaft seals are replaced during major overhaul, as well as when performing other types of minor repairs. Shown below are the part numbers for these new crankshaft seals

Part Number	Description	Engine Application
K3904353	Seal, Crankshaft, Front	B Series
K3921927	Seal, Crankshaft, Front	C Series
K3934486	Seal, Crankshaft, Rear	B&C Series

These seals include installation tool and wear sleeves where applicable. Be sure to include these fast moving parts in your next stocking order.
